WORK EXPERIENCE

FRONTEND DEVELOPER

Improdata Company | Clifton, Karachi

Sept 2024 - Jan 2025

As a Frontend Developer, I developed and maintained the Onboarding, Brands Admin, and Admin Panel portals, ensuring responsive layouts for an optimal user experience across devices. I worked extensively on React Native applications, focusing on creating and integrating login, registration, and authentication screens, including OTP verification. I also built navigation systems, such as Splash, Onboarding, Password Reset, and User Registration screens, and integrated seamless navigation, including bottom tabs after login. My contributions significantly enhanced user flows and improved app usability and security through effective integrations.
